Unique warranty and after sales service second to none in the industry.

5 Day promise

Not only do we offer great bikes at very reasonable prices, the FreeGo Wisper Group offers a unique promise to give you complete peace of mind...

If during the first twelve months your FreeGo electric bike malfunctions and cannot be repaired within 5 working days it will be replaced with a new electric bike.

We believe this promise is unique to FWG and confirms the confidence we have in our bikes and the ability to service them effectively.

Warranty

Batteries have a two-year warranty, frames five years and the rest of our components have warranties ranging between one and two years.

Safety

All our bikes are certified to EN15194 meaning they conform to tough European safety standards. Our batteries are UN certified.

Service and support

All FWG stockists are willing and able to look after all your servicing needs, we back them up with expert advice and support from our team of technicians and hold ample stock of spare parts.

10 years experience

We have been designing, selling and servicing electric bikes in the UK since 2005.
